of the course of the News and Courier in the

The Press and Banner has in times past pro tested against the resurrection of that old Re port on Frauds.

If the Democrats in 1877 compounded felony with Mr. Smith or any one else, it is very little to their credit. But if they did compound a felony, and then pretended to forgive, excuse, or condogn the act, then we do not know of any proceeding more repul sive to our nature-after pretending to for give-than to charge the offence again.

The bringing of old charges which were set tled in the years that is past, are in our opinion, about the same as the waving of the bloody shirt, by "our friends, the enemy," or the renewing of the charge of treason, after amnesty had been extended.

As honorable men we should protest agains the raking up of old things, which were set tled. Is there never a time when these cases are settled or barred?

There are no doubt many good men in South Carolina who have plenty of glass win dows, and the man who has not some of these transparencies, has taken very little part in the affairs of the country during the last thir ty years, or else he has been an exceedingly

If the people of Columbia may bolt the ticket, then the people of any other municipality or county can do the same thing.

### An Orphan, so to Speak.

Until we get the Georgia, Carolina and Northern road, the people of Abbeville coun ty are somewhat at a loss which way to turn The trade of this section has been almost en tirely withdrawn from Charleston. The trade which has been going to Augusta will be diminished, unless our farmers get accommodations on terms which cost them less than thirty or forty per cent. for a few month Some of the trade which went to Augusts last year, will come to Abbeville this year, for the reason that money and goods could be had here on more reasonable terms than in Augusta. Our bank has money which it lets out at the rate of ten per cent. without the incidental loss and cost of \$3 to \$4 in shipping cotton. The day for hauling cotton about, al over the country, to sell it has passed. It is worth about as much in one market as in an other, and the cost of local freight commis sions, etc., is just so much loss to the farmer.

## Death of Malcomb Erwin.

Our Honea Path correspondent informs to of the death of Malcomb Erwin, which even occurred at his home last Saturday morning at the age of 64 years.

In his death Abbeville county has lost patriotic citizen, and the church has lost liberal supporter of the gospel. Mr. Erwit came to this country some forty years ago without money and without special qualifi cation for business, but he went to work with a determination to improve his condition in life, and the handsome estate which he leaves, and his acts of liberality in aiding public measures or the interests of the church attest the success which rewarded his efforts, and would be a proud record in any man's life. Many citizens will regret to hear of the death of so good aman.

A Remarkable Surgical Operation

A Remarkable Surgical Operation.

A letter which was published in the Atlanta Constitution a few days ago will interest members of the surgical profession generally, perhaps, but appeals particularly to the pride of the surgical staff of the Hampton Legion, one of whom undoubtedly performed the operation in question. The letter is as follows:

"The undersigned was of the Union force engaged in action with the Hampton Legion, before Richmond, on October 6, and having been wounded, an desirious of finding the surgeon who, now being unknown to me, performed an operation upon my left arm. At the lime I was commanding Company C, 3d regiment New York cavairy, and was taken prisoner October 7. The operation referred to—removing the elbow joint on the left arm—was performed on the field on the right-hand side of the Darbytown road, about four miles from Richmond. It was done in a tent, and there were two surgeons present. The operation turned out to be of a remarkable character, and I am very anxious to find the surgeon who did it, if alive, in order that he may be made aware of his skilful work. If he should be living, and this meets his eye, it would be agreat pleasure for me to send him a photograph of my arm, to be followed later by a visit of myself.

"Enoch Stahler,"

"Lich Third avenue, Minneapolis, Minn."

"Enoch Stahler,
"2,116 Third avenue, Minneapolis, Minn."

The News and Courier says. The surgeons of the Hampton Legion were all South Carolinians and gentlemen of eminencein their profession, and the skill displayed by them on the battle-fields of the war has been no less conspicuous in their practice played by them on the battle-fields of the war has been no less conspicuous in their practice in time of peace. We cannot, therefore, undertake to name the one whom Capt. Stahler seeks to identify, but, with the exception of Dr. John T. Darby, they are still living and can doubtless decide this interesting question among themselves. The survivors are Drs. J. Somers Buist, F. L. Parker and F. L. Frost, of Charleston; B. W. Taylor, of Columbia; J. J. Bozeman, of Ninty-Six, and D. McLaurin, of Sumier, and to them Capt. Stahler's letter is referred for the attention it deserves.

and forty persons were present, and the readings and music were instructive and charming. Such social gatherings are quite improving, and is calculated to bind the people of any town or community closer together, and develop the finer feelings of the young, and beget in them aspirations which will shape and determine their characteristics in after life. This organization is a fine acquisition to Lowndesville.

MISS SALLIE DONALD of Williamston is on a visit to her brother and his

The Persecution of J. M. Smith, of Columbia.—Is the Democratic Party to be Destroyed?

The News and Courier in the last few days has assumed agreat deal of virtuous indignation because the people of the Fourth Ward of Columbia recently nominated J. M. Smith for Warden. We believe several persons were voted for in that election, J. M. Smith re-

more. Cousin William Rogers was in town a few days ago looking after his many friends and

Mr. D. Jack Myers has moved to his farmer besides one of the most practical men near Ninety-Six, says he has tried all the breeds of cattle and hogs and at last decided that the Jersey cow and Berkshire hog is better adapted to our county than any other breeds. He is eminently correct.

Capt. Jack Myers has moved to his farm in Edgefield county near Ninety-Six.

Mr. Thomas Duckett has turned his attention to farming and will plant extensively. Success to you, Bro. Duckett.

We notice that the Greenwood Tribune has nominated Capt. James N. King for County Chairman. Capt. King would make a fine executive officer and the people could not reward a more faithful democrat.

Miss Annie Baker, of Lowndesville, is visiting friends in town.

kill the birds for him.

THE NATIONAL BANK OF ABBEVILLE.
ABBEVILLE, S. C., March 24, 1888.

MR. A. W. JONES, Auditor, Abbeville county.
DEAR SIR:—Yours of 22 inst., received and roted. As yon know, we made a return for the locomotive." Mr. Forney will noted. As yon know, we made a return for this Bank within the time prescribed by law, and we take it that the object of your letter is to call attention to some supposed error in this return. Our return, as made, called for \$37,000 subject to taxation, and was based, as we thought on the requirements of the law.

A great quantity of material has been col-

Amount taxable If you say that we have circulation issued

If you say that we have circulation issued on these bonds, we would reply that we get as circulation, (which is non taxable) only 40 per cent, of the face value of these bonds of the face value of the stock at par, as the small balance we had on hand, in way of surplus and undivided profits, is more than counterbalanced by the large premium on U. S. Bonds, which we were enforced to pay in order to secure a corporate existence and by the dividend paid since i January.

Our wish is to do just what is required of all porate existence and by the dividend property of the since I January.

Our wish is to do just what is required of all the National Banks in the State, even if we are wrong in our opinion as to the law, and to reach a definite decision on this point, we would respectfully reguest a reference of this whole matter to the Comptroller General of the State.

Respectfully yours,

A. B. WARDLAW,

President

wuch an inviting church in which to worship, in on member ought ever to be absent unless providentially hindered.

Mr. J. W. Rykard is the boss crow, hawk and dog killer in the county. Woe unto the crow that eats his corn. Woe unto the hawk that catches his chickens, and the dog that sucks his hen eggs.

Messrs. T. J. Davis and T. A. Cobb have each placed a number of nicely sawed cross-ties on the A. & K., for which they find ready sale.

Mr. Parker Adkins, of Verdery, has purchased the "Bond place" from Mr. T. N. In Nickles and will probably make his home among us after this year. A better community in which to live could hardly be found.

The piles of car wood that have lain on the railroad banks for a long while, a dead weight on the owner's hands, have all been disposed of through the wood racks, except about a hundred cords which is now being put through by Messrs. Morrow and Scott.

Mr. Edmond Anderson has been confined to his bed for a week past with some heart affection. Condition not much improved.

Died, Monday evening, March 19th, infant chilld of Mr. and Mrs. Franklin Adkins.

Mrs. Louisa Malone is quite sick with fever. The prayer meeting at the home of Mr. W. O. Anderson was well attended.

Mr. Will Adams and Miss Maude Hutchindson were married last Sabbath. Both residents of the famous "East side of Hard Labor."

I suppose that every teacher in the common of the co United States statute referred to by Major Wardlaw.

Wardlaw.

Messrs, D. L. Barnes and w. M. Baker have formed a partneship for the sale of wagons, harness, whips, &c., a supply of which they will constaully keep on hand.

The meeting of reading club at Dr. J. B. Moseley, on last Friday night, was an improvement upon predecessors, at least as to members present, and amount of funds raised Treat.

The publishers of Scribner's Magazine are now able to announce that in June number ticles on railways, of which a brief announcement was made in the prospectus for the year 1888. The great importance and wide interest of the subject are shown by the fact that in the United States there are about 150, 500 miles of railway (nearly one-half the total in the whole world, although the population of this country is only about one-thirtieth of that on the globe.) These roads have cost more than \$8,500,000,000, and their earnings for the year 1887 were about \$900,000,000 of which two-thirds was expended in maintenance. From these figures it is evident what a vast amount of the capital of the country is invested in railways, and how large a number of people draw their support from this source. In the State of Illinois alone there are more than 50,000 people who are dependent upon railways for their occupation.

Nor is it only in their vast material importance that their interest consists: the enterprise and invention that they have enlisted, perhaps more than any other undertaking; the wonderful feats accomplished in their construction; and the intelligence, foresight, and skill called for in their working, give to everything connected with them a special attraction for all Americans.

The articles which have been planned for Scribner's Magazine will treat the whole subject from a point of view of popular interest, presenting the greatest information in the most attractive manner.

Among lean, lank dog lwas shot and killed here in town on yesterday which was support from this source. In the State of Illinois alone there are more than 50,000 people who are dependent of the capital of the country is source. ture Delightful in Spirit, Valuable

in Matter.

Harper's Magazine for April is not only full of interesting and instructive matter in type and illustrations, as usual, but its tone has a note of lightness in it most proper for a spring time Number.

The opening article is about Algiers, its people, its climate, and its customs, and was written by F. A. Bridgman, the artist. It is profusely illustrated with engravings and fac-simile reproductions from Mr. Bridgman's own paintings. Many of these are full-page pictures, and are most artistle from every point of view.

own paintings. Many of these are intripage pictures, and are most artistic from every point of view.

The poetry of the Numder includes two reprints: Wordsworth's;"The Shepherd, looking Eastward, softly said," and the old English song, "Sweet Nelly, my Heart's Delight." The former is illustrated by Alfred Parsons, in a drawing used as the frontispiece; the latter blossoms into two full-page sketchers in E. A. Abbey's best style. Other poems are by Andrew Lang, Elizabeth Stoddard, Richard E. Burton, and Dora Read Goodale.

There are two complete stories in Harper's Magazine for April: "Ananias," a dialect sketch, by Joel Chandler Harris, and "Chita; a Memory of Last Island," by Cafcadio Hearn—a powerful novelette of thirty-four pages in length. William Black also continues "In Far Lochaber," the interest of which constantly grows.

tantly grows.

C. Coquelin discusses "Actors and Authors" from the point of view of the practical, successful player as well as of the great artist, and his comments on the "business" of the of railroad life and work for the illustration of each paper.

The scheme for this series of articles has received the hearty approval of many of the most prominent railway men of the United States, and cannot fail to have an absorbing interest for the great body of intelligent people who enjoy the advantages of railway traffic without an adequate idea of the immensity of the system and the perfection of its organizations.

C. Coquelin discusses "Actors and Authors" from the point of view of the practical, successful player as well as of the great artist, and his comments on the "business" of the stage are vastly entertaining. The article is in a measure supplementary to the one, written also by M. Coquelin, which appeared in Harper's Magazine for May, 1887, called "Actors and Acting." It is profusely illustrated with portraits, as well as several sketcnes representing Sardou and Sarah Bernhardt at a rehearsal.

"Japanese Ivory Carving," by William Elliot Grifffs, contains a full description of art expressed in ivory by clever Japanese artists. Ivory carving had its rise in the demand of the tobacco smoker for delicate instruments to minister to his vice. The meaning of the curious figures which the Japanese carve in this substance is also given. The article is illustrated by seven pictures.

The City of Columbus, Ohio, is fully described by Deshler Welch. Its good points are brought into prominence, and its natural and architectural beauties are pointed out. The letter-press is supplemented by: numerous illustrations of new buildings and natural scenery in and about the place.

In "The Humors of a Minor Theatre" will be feund an account of the kind of amusement which the inhabitants of poor districts in London enjoy. It is melodrama, of course, and of a rare kind, too. This article is written by F. Anstey, and illustrated most cleverly by Frederick Barnard.

Charles Dudley Warner gives his impressions of Minnesota and Winconsin in his second article on the Great West. The beauties of St. Paul, Milwaukee, and Madison receive due notice, and the intelligent progress in the science of farming in Winconsin especially, is dwelt upon at length. Names are mentioned occasionally, and credit is given where credit is due. Mr. Warner's observations in regard to the tendency of "practical" education similar to those enjoyed now by thelengineers and artillery in institutions at Willet's Point and Old Point Comfort.
